FROM

P. B. WARBURTON, Esq., I. C. S.,
FIRST ASSISTANT TO THE RESIDENT IN MYSORE.

To

The Dewan of Mysore.

Dated Bangalore, 3rd April 1911.

SIR,

I am directed to state that the Government of India are publishing as material becomes available a uniform series of illustrated manuals or manographs on the various -- breeds of Indian Cattle, and that it is proposed to include in this series the breeds of cattle to be found in the --- Mysore State.

2. The material for the letter-press is available in the form of a Ledger* (Veterinary Series No.16. 1895- No.24) and to illustrate it, it is proposed to reproduce some old photographs of which the originals are fading. The Ledger in question was written by Mr. A. Krishnasamiengar, B.A., and Captain (now Colonel) H. T. Pease, F.Z.S., and it is understood that their work was based on the "Notes* on Mysore Cattle" by Mr. Krishnasamiengar published at the -- Government Central Press, Bangalore, in 1895, and that the illustrations in that publication were taken from the old original photographs which it is now proposed to reproduce for the Mysore Cattle

R. P. B.—21-1-1911.—4,000.

Cattle Manual.

3. It is understood that the "Notes" were originally furnished by Mr. Ricketts, Inspector General of Forests, Mysore, to the Civil Veterinary Department in India, and were revised by Mr. Krishnasamiengar before being issued as a publication of the Mysore Durbar. Before issue by the Durbar, the Inspector General, Civil Veterinary Department, was in 1894 authorised* by Mr. L. Ricketts, Inspector General of Forests, Mysore to publish the notes he had furnished then or at any future time at his discretion, but no issue has in fact been made up to the present.

*Letter from L. Ricketts Esq. Inspector General of Forests, Mysore, to the Assistant to Inspector General, Civil Veterinary Department, No. C.3, dated 17th October 1894.

4. In 1908[A] the Inspector General asked if there would be any objection to reprinting the "Notes on Mysore Cattle", but the Mysore Durbar[B] did not see their way to allowing a reprint while many copies of the original "Notes" remained unsold.

A. Letter from Inspector General, Civil Veterinary Department to the Govt. of Mysore, No.540-425-M., dated 30th April 1908.

B. Letter from the Military Assistant to Govt. of Mysore, to Inspector General, Civil Vetrinary Dept., No.259, dated the 17th July 1908 and enclosure.

5. I am now to explain that it was not intended to reprint the Notes on Mysore Cattle published by the Mysore Government which contains a good deal of matter dealing with diseases and their remedies which does not come within the scope of the Cattle Manuals of the series published under the orders of the Government of India, but to reprint the Ledger article quoted in paragraph 2 of this letter and to illustrate it with reproductions of the original photographs taken prior to 1895.

The series of Manuals would be incomplete without

a

13

a volume of the Mysore breeds, and as the original photographs are fading the Government of India consider that it is a matter of importance to have them reproduced as early as possible.

6. As the letter press and the illustrations will be in part similar to those of a publication of the Mysore -- Government, I am to request that the Resident may kindly be informed whether the Durbar would have any objection to the publication of the proposed Manual.

I have the honour to be,

Sir,

Your most obedient servant,

First Assistant Resident.
